CEO Keynote - Time to start a riot

In a flash it is August! You may feel time is zooming by too fast as deadlines are approaching, or time is crawling too slowly as you wait for a big result. Through all this, we want you to be a part of your success story with providing you clean and affordable energy. Let's start a riot and join our community.

Thomas Frank, CEO

Support of the Get-Invest FC team

ENVIDATEC SEA signed an agreement with GET.Invest Finance Catalyst to receive advisory support from the GET.Invest Finance Catalyst team.

GET.invest is a European program that aims at mobilizing investments in decentralized renewable energy projects. It supports private sector business and project developers, financiers and regulators in building sustainable energy markets. In doing so, it contributes directly to the interlinked development (SDG) as well as climate change objectives (Paris Agenda).

"I've been very passionate about renewable energy for many years, particularly solar energy and its capacity to bring abundant clean, sustainable energy to millions around the globe."

Richard Branson

Call for Proposal of Interest

We are launching a call for proposal of interest to identify customers who are willing to use our services and purchasing solar electricity at a fix feed-in-tariff over next twenty years at a lower price comparing to their existing energy price.
